This volume, the most comprehensive account yet of the CIA's activities between 1947 & 1967, presents shocking evidence of the CIA's manipulative cultural undertakings during the Cold War. This impressively detailed book draws together newly declassified documents & exclusive interviews to expose the CIA's astonishing campaign wherein some of the most vocal exponents of intellectual freedom -- including George Orwell, Bertrand Russell, Jean-Paul Sartre, Arthur Schlesinger, Jr., & Gloria Steinem -- become instruments of the American government. A true story of intrigue & betrayal. B&W photos. A real contribution to popular understanding of the postwar period.Γ"
